## TRAMPS ARE ON THE RUN

VIGILANCE OF THE POLICE RE-SULTS IN A GENERAL EXODUS

But Five Arrests for Vagrancy Made During the Past Two Days-Alleged "Epidemic of Crime" a Thing of the Past-Police Department Will Not Rolax Its Vigilance.

During the past two days there has been a perceptible decrease in the number of tramps and other undestrable indications point to the fact that the recent scare and alleged "epidemic" of assaults, burglaries, hold ups and prizes, will begin at the Second regireality existed except in the minds of tinue on Christmas day from 9 a. m. some morbid, easily frightened rest to 11 p. m.

It is unquestionably true that for the with tramps and vagrants, who having been driven from the country by the cold weather, have come to this city with the purpose of wintering. This class of human beings will never work and manage to eke out a precarlous existence by begging and petty thlevery. The number of this class of "travellug gentry" who have come into this city has been perceptibly increased by the action of the cities and towns throughout the state which have taken the initiative in the matter and have been arresting and sending to jail as tramps and vagrants any transient persons found within their confines

without any visible means of support. The tramp question in this city has been met and dealt with promptly and efficiently by the police department and the city court and the result is that many of this undesirable class of translents have shaken the dust of New Haven from their feet and hied themselves to more congenial climes. When the seriousness of the matter was brought to the attention of the police members of the department were detailed to do duty on the streets in citigens' clothes and a number of supernumeraries added to the force tempoearly. In consequence a number of arrests have been made of suspicious or

in the past ten days and this together with the action of Judge Dow in inflicting jall sentences has had much class are either in jail or have left selectmen the city is proven by the fact that on Saturday and Sunday only five arrests were made of vagrants or beggars, average daily number of arrests for the same offenses have been twelve to

The efforts of the police department will be in no way relaxed during the next two weeks and everyone found on the streets begging or acting in a suspicious manner will be arrested and brought before the city court. Every member of the department from Super-Intendent Smith to the most recently appointed supernumerary is determined to do all in his power to rid the city of these pests and the same determination is shown on the part of the city court officials, when the judge on the bench is credited with saving that although the jail is unusually crowded even for this season of the year, he will continue to commit tramps and other idle persons even though it become necessary to rent some place in which to confine them.

During the past two days a large number of tramps are known to have left the city and at no time since the advent of cold weather has there been so many pedestrians on railroad ties as during the past forty-eight bours. mittimedhad-hhc-,gymbl zbb
